

Tall Poppies Wedding bouquets represent style, quality and perfection.

It is Tall Poppies privilege as designers to create exquisite bouquets for our clients on such a special day in their lives.

For the stylish Bride and her wedding party we offer a modern range of bouquets using premium quality blooms, luscious greenery and organza accessory finish.

Let Tall Poppies create a stunning bouquet of flowers to complete the look on your big day.

Once Tall Poppies has received your wedding Wish List you will be forwarded a price estimate.

Note: This is not a firm quote as prices may vary depending on the flower prices at the time of purchase as we buy on an auction system.

Once we have received your deposit you have officially booked with Tall Poppies - Then a time is made for you to discuss your style, theme and budget in more detail. A nonrefundable deposit of \$50.00 is paid to Tall Poppies to secure your date.

The deposit is deducted from the total balance payable before the wedding date.

There are different techniques for making stylish bouquets and this is where you pay not only for the flowers, but our creative skill, experience, time and concentration it takes to create a work of art - flowers to remember!

Price depends on quantity, variety of flowers used, size of bouquet and time of the year.

The day before your wedding day we ask you to view your bouquets. At this stage they will not be fully completed but this is where you can make any last minute changes and we will show you how to hold them correctly. Once completed they go into water with professional flower preservative and are place in the cool room to condition them for the big day.

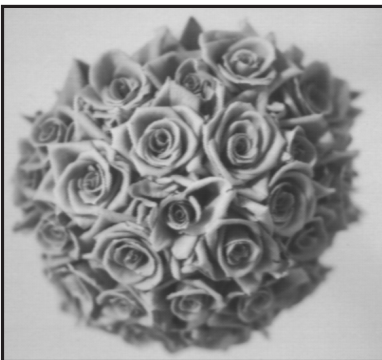

Tall Poppies will personally deliver the bouquets to the Bride generally no later than the Photographers arrival.

* Delivery charge \$20.00 per delivery in Christchurch or flowers can be collected from retail store.

For enquiries I am in-store Monday to Friday 9am - 1pm or email on tallpoppiesflorist@clear.net.nz

Regards Charmaine Irwin

Principal Designer

price example
